Model: 36 Performance
Price: \$249,000
Type: Sail
Hull Type: GRP
Length: 10.99m
Condition: Used
Year Model: 2013
Location: NEWPORT

Description

The Dufour 36 Performance is a 36-foot racing yacht equipped with a hull of excellent quality and a powerful sail plan. Its speed guarantees sailing thrills without compromising on comfort and elegance. As such it was awarded 2013 European Yacht of the Year in the Performance Cruiser division.

La Mer has an open and flexible deck layout for optimum comfort. The warm and spacious living area is perfect for rest and relaxation. Its new shaped portholes brighten the interior, which offers spacious storage and functional, comfortable cabins.

Reflecting current design trends, La Mer features twin wheels, a large main and easy-to-handle jib, and a fold-down transom/swim platform.

The design's racing intent is on definitely on display. A very functional traveler spans the cockpit forward of the helms, and cockpit lockers that double as seats can be lifted out to give trimmers and the helmsman more room to work. German mainsheet system, adjustable back stay aid the ease of performance.

The layout below is fairly traditional. A roomy cabin and V-berth forward entered through double doors add to the spacious feel, double aft cabin and full-length settees line the saloon. A sit-down nav desk is to starboard, across from a compact but very workable galley that features double sinks, a large refrigerator, and a two-burner Lpg stove and oven.

La Mer has been fitted locally with North Sails incl dodger, bimini and awning. Antifouled in November, she is ready to sell.

Located at RPAYC Pittwater until January.

Contact Vicsail Sydney for an inspection.

Secondary Details

Beam (m): 3.61
Draft (m): 2.2
Displacement (kg): 6125kg
Hull Construction Material: Hand-laminated in polyester/glassfibre, sides made from vacuum-bonded PVC foam core sandwich.
Deck Construction Material: Sandwich with injected PVC foam core
Registration Number: FMAN
Designer: Umberto Felci
